Unity

React Native

Roger Kunst

Full Stack Developer at Self Employed
Woodbridge

Summary

I am a senior full stack web and mobile developer with extensive experience. Supported by skills developed in my degree, I have developed skills in observation, problem solving and group collaboration. Presently skill in technologies such as HTML5/CSS3, Javascript, Angular, Node.js, React/Redux, React Native, C#/C++, Java, Unity, several CSS libraries, and MySQL, MongoDB. These skills are just the start of my journey in this industry, and I have plenty of room to grow and develop in my current technologies and skills, and well as new ones.
